

The Beiseker Times

Vol. 3, No. 32

EDMONTON, ALBERTA, FRIDAY, OCT. 26, 1951

Subscription \$2.00 Per Year

A Thank You Letter

BEISEKER—The following is a letter received from Mr. C. Robert Dickey, general secretary for the Alberta Tuberculosis Association:

This is to let you know how much we appreciate all the co-operation extended to the Alberta Tuberculosis Association and the Department of Public Health by the Beiseker Times and by the people of Beiseker and district, in the survey conducted there by the Christmas Seal Mobile Chest X-Ray Unit.

Much credit is due to the Beiseker Chest X-Ray Survey Committee for their untiring efforts in this campaign, and to the citizens of Beiseker who co-operated in bringing this project to its conclusion.

Mr. E. R. Baxter, Director of Surveys, has told me of the many courtesies he experienced, and of the considerable amount of work cheerfully done by the Beiseker Survey Committee and their helpers. It would be impossible to name all of them, but I might mention Mr. F. A. Lount, Mr. E. Berreth, Mr. E. Schwarzenberger, Mr. B. Schmaltz, Mr. C. E. Schmaltz, Mr. J. Leiske, Mrs. A. A. Wald and Mr. Peter Schmaltz. I would ask you to convey our sincere thanks to them and to all their associates for a very fine job.

Our records show that there were 868 free chest X-rays given at the Beiseker clinic. Preliminary interpretations of these films by the Tuberculosis Division, Department of Public Health reveal:

Probable pulmonary tuberculosis active	0
Probable pulmonary tuberculosis inactive	6
Other chest abnormalities	5

Attention is drawn to the fact that this is purely a preliminary report and is not to be considered final until all abnormalities had had further complete examination.

Gov't To Probe Newsprint Shortage

OTTAWA, Oct. 19 — (BUP) — Trade Minister C. D. Howe has promised to investigate complaints that weekly newspapers are having difficulty obtaining sufficient supplies of newsprint.

The Trade Minister—in reply to an appeal from CCFer Stanley Knowles of Winnipeg — says he will ask newsprint controller R. M. Fowler if anything more can be done to allocate newsprint equitably.

ANN MILLER is a new, pretty movie face you'll be seeing in MGM's "Texas Carnival," with Esther Williams and Red Skelton. Here she strikes an alluring pose for the technicolor film.

BLINDCRAFT ARTICLES MADE IN OCCUPATIONAL SHOP—Blind people are given occupational work in the workshops of The Canadian National Institute for the Blind. Shown above are two blind people manufacturing articles for sale. This subsidized shop is made possible by your donations to the current campaign of the CNIB.

Coyote Control Policy

Contributed by W. S. Backman, Field Supervisor

THREE HILLS — Early this year the Department of Agriculture assumed the responsibility of coyote control in settled areas in Alberta. The coyote was declared a pest under the Agricultural Pests Act. Municipalities come under the Provincial Coyote Control Policy by making application to the Field Crops Commissioner. This has been done in this municipality and Mr. William Lobay,

Supervisor of Crop Protection Service, has been in this district to conduct a school in the use of "coyote getters".

There are many ways of controlling coyotes. One of the ways used was to pay a bounty for coyotes killed. This system was tried but was not satisfactory. Montana and Saskatchewan also tried the bounty system but it was soon discontinued. There is no bounty for coyotes in Alberta now.

The Coyote Control Policy in Alberta, at the present time, involves the use of "coyote getters". The "getter" is simply a shell loaded with cyanide powder and set upon a special stake in such a way that when this loaded shell is pulled, by the coyote, it is fired and the cyanide dust is released into the coyote's mouth. Usually the coyote dies within 40 to 100 yards of the "coyote getter".

As this equipment is dangerous, it has to be handled with extreme caution. Only those who have been properly instructed in their use, can secure "coyote getters".

Children must be warned to stay away from "coyote getters". They are not to be placed close to farmsteads, roads, paths or other places in general use or easily accessible to children or livestock. Neighbors have to be warned to keep their dogs at home. They are not to be placed on land without the written permission of the owner or operator.

"Coyote getters" involve the use of cyanide—a very potent and dangerous poison. It must therefore be handled in a special way and by trained personnel to avoid accident. A person must be in possession of a certificate showing that he has been trained in the proper use of "coyote getters" before the equipment is issued to him.

The District Agriculturist is the custodian of all supplies. He releases coyote getters only to Pest Control Officers who hold certificates.

Five area Control Officers have been appointed by the Kneehill Municipal Council. The snow blocked roads this week prevented them from attending the school conducted by Mr. Lobay. They will be instructed by the Pest Control Officer as soon as possible. The Coyote Control Policy will then function in this district.

Support CNIB

BEISEKER—The CWL wish to thank the people of Beiseker and district for their generous support in their drive for the CNIB, also the girls and boys who so willingly worked to make this tag day a success.

BEISEKER NEWS BRIEFS

Mr. Raymond Schwarzenberger is in Calgary taking his first year of University.

Miss Margaret Hogel, of High River, was home for the week-end.

Mr. and Mrs. Plus Hagel were visitors at the homes of Mr. and Mrs. Anton Hagel and Mr. and Mrs. Ed. A. Hagel on Sunday.

Little Jullie Velker is looking very pretty in a nice new red

outfit this winter.

Mrs. Anton Hagel is busy knitting wool hats since the cold weather set in.

Mrs. W. Rempel entertained the Ladies' Bridge Club on Tuesday, Oct. 16. Honors in bridge went to Mrs. Harry Simmonds and Mrs. Adam Velker.

Mr. and Mrs. Leo J. Murphy, of Chateau Montana, called in town on their way to visit the Lions Club in Carbon. Mr. Murphy is District Governor of Lions International.

Miss Pauline Schmaltz is in Calgary taking a business course at the Hollingshead Business College.

Mr. David Targstedt is taking a machinist course at the Calgary Technical School.

Mr. and Mrs. C. L. Schmaltz motored to Rockyford on Sunday. Born to Mr. and Mrs. Dave Lang, a son.

Don't forget the big Halloween dance on Oct. 31, following children's party sponsored by Beiseker Lions Club.

RCAF Forms New Jet Squadron

OTTAWA, Oct. 17—(BUP)—The Air Force announced the formation of a new jet fighter squadron, based at North Bay, Ont., with a World War II fighter pilot ace as its commanding officer.

The new squadron will be equipped with F-86 Sabre Jets, the fastest jet fighter on active duty with Allied air forces. It will draw the name from the famed 430 Squadron of World War II, and will be commanded by Sqdn. Ldr. J. F. (Stocky) Edwards, 30, Battleford, Sask.

Wins Medal

BEISEKER — John Chenchio won the Governor-General's medal for Grade 9. John is a Beiseker High School student, and won the medal for the Wheatland School Division.

Correction

BEISEKER — The report on the annexes being constructed in Beiseker should read 42,000 and 40,000, and not 4,200 and 4,000.

EDITORIAL PAGE

Harvest Losses Increased

Once more the farmers have taken it in the neck from the weather. With only about 25 per cent of the harvest completed in Alberta, according to the provincial minister of agriculture, the winter seems to have swept down on the scene with temperatures as low as 24 above, and damp snow lodging on the fields.

Is it any wonder the farmers get disgruntled sometimes and feel like rebelling against their lot. But the farmers will not be the only ones to suffer. The general economy of the province will share the blow if this one-time promising crop is not garnered safely.

As far as the weather is concerned the ancient piece of cynicism, "we must weather the weather whether we want to weather the weather or whether or no!" expresses the fact, but a more general, enthusiastic support for the farmers in the job of getting their grain out of the field and into the elevators is due. So many years the situation is similar to the present that it might be a good thing if steps were taken by governments and provinces to enact measures that would insure an early or more speedy harvesting of the crops in the general interest.

Cheese Aids Prosperity

This month the dairy industry of Canada is celebrating its Cheese Festival. The purpose of this festival, it has been explained, is to encourage the consumption of this highly nutritious food among Canadians. It is demonstrated that cheese replaces meat with a valuable high protein substitute.

In the early days of Canadian history, since Confederation, the cheese industry was an important creator of the country's wealth and prosperity. Alberta's dairy commissioner, D. H. McCallum, says few people realize what cheese has done in the development of Canadian industry. Since 1860, when the first cheese factory was established in Oxford County, Ontario, there was a "boom" in cheese making and by the turn of the century, about 1,000 factories were operating.

Exports of cheese went chiefly to the United Kingdom, and they increased to such an extent that in 1900 they totalled over 200 million pounds. If Canada's huge cheese business could be restored to its former size with the British consuming public, what a boost national prosperity would get. But, the need for milk at home and the loss of former markets have reduced the wealth coming from cheese.

A New Bearded Wheat

Farmers in the prairie provinces will be able to test the qualities of a new variety of bearded wheat this year, according to reports from agricultural experts in Winnipeg. It is called "Lee" and is an American production said to be resistant to most varieties of rust. It is not, however, resistant to the new race of rust known as 15-B. Its milling and baking qualities are good and it is licensed for use in Canada. It has value as an addition to the present used varieties.

Farmers who would like to try Lee can get it as long as supplies last from the Dominion Laboratory of Cereal Breeding, Fort Garry, Winnipeg, by making application for the amount they want.

Note and Comment

As is not unusual with public utilities, the Edmonton Transit System has been losing money. Besides, the employees are not satisfied with their present scale of wages and want more money. This is not a pleasant prospect for the thousands of Edmonton bus riders who will now be forced to pay more for their fares, further increasing their cost of living.

In 1939 the average hourly wage in Canada's manufacturing industries was 42.7c. The average worker therein had to work 15.6 minutes to buy a quart of milk.

This is the time of the year to avoid snakes, whether reptilian or human.

There is so much planning for war that first thing we know, there will be war.

Our public schools present the world's most prodigious project to perfect people.

Go North, Young Homesteader

By T. W. FUE

Back in 1944, when I decided to come to Edmonton from Manitoba to live, I wrote to the Alberta Government for a map of the Northern half of the Province. I wanted to study the district around Edmonton, but found that the most Northern city in Canada wasn't on the map of the northern half of Alberta. In fact, half the province lies north of a line running 100 miles north of the Capital.

T. W. FUE

Coming back from a trip to Athabasca last week, I had dinner in the dining room of the Colinton Hotel, where I met a young man who travels for the Government inspecting Homestead properties. He told me a lot I didn't know about the agricultural possibilities of our north-land.

Most people think that Canada's Northland — between the popularly known areas of the country and the ice-covered territories—is nothing but a vast wasteland.

But the fact of the matter is that there's all kinds of excellent farm land there... and the Government wishes that more adventuresome farm-folk would move into the area.

In Northern Alberta, for instance, an estimated three million acres of agricultural land lies a whole three hundred miles north of Edmonton. And good, fertile, land it is, too.

The officer in charge of the experimental substation at Fort Vermilion, in Northern Alberta, reports that in July of this year, crops of wheat, barley, and oats gave indication of producing much greater yields than in other parts of the country.

The officer—Victor J. Lowe—says that the wheat average was expected to be 35 bushels per acre... barley was to average forty bushels an acre... and oats a whopping seventy-four bushels an acre.

At the substation which Lowe heads, over the past ten years they've had an average of thirty-four and a half bushels per acre of wheat. Barley has averaged better than thirty-nine bushels per acre... and oats have run to seventy-two point four bushels per acre.

During the summer months, the long duration of sunlight is one of the major factors contributing to the excellent growth. And frosts are not considered a menace because the rate of growth permits harvesting of most tender crops before fall colds arrive.

Grains are not the only crops in the area.

Horticultural crops are normally grown in abundance, and there are very few limitations both as to types or species.

Bush fruits are also successfully grown, but tree fruits are still confined largely to the experimental station.

At the station, hardy varieties of apples, crab-apples, plums, and cherry-plum hybrids have produced good quality fruit during recent years.

Cattle and swine are numerous... and most of the area's coarse grain is consumed by the livestock and subsequently marketed as animal products.

With the completion of a new bridge across the river at Athabasca, more settlers will be going in to take up farm lands within 150 miles of Edmonton, on the homestead basis.

This is an opportunity for young farm people from older settled areas of our province to push out into the northern areas where land is free and fertile.

The pioneer area is just beginning for half of our province.

Every Day Living

Most of us are inclined to complain and find fault when the going gets tough. Why this and why that? If the weather is cold why not wait until summer? If the day is hot enough to cause us to sweat we look for a shady spot and complain that the job may as well wait for a cooler day.

Some air force men had just been assigned to rebuild an air base when a severe blizzard struck the area. The resulting hardships prompted the inquiry: "Why should this job be necessary during the winter?" Then one day the men in the control tower received an alert call. Several transport planes returning men from overseas could not land at their designated base. Fuel was low. Could they land here? Because the men had been on the job, immediate clearance was flashed to the pilots. The big planes rolled down the runway to a safe landing. The men had one good answer to their question.

We all question the wisdom of certain assignments in life. At the moment we may not find the answer. Whether it be Joseph sold into Egypt, Philip sent to Gaza, or you in your present responsibility, Jesus gives the "clearance" at the Samaritan well—"to do the will of Him that sent Me."

Our faith assures us that the overall plan of God contains the answer for us.

"Jesus saith unto them, My meat is to do the will of Him that sent me, and to finish His work."

John 4:34. Read today—John 4:27-38.

ANTI-FREEZE SOLUTION

THE COMING cold weather in the Northern Hemisphere and a hot war in Korea hasn't helped the economic situation in Canada and the United States. The biggest problems are economic and not military, with threatened shortages of materials putting a strain on prices and the cost of living index.

Voice of the People

"VOX POPULI, VOX DEI"

BREAD AND WHEAT

Dear Sir — For years the government has been shortchanging the farmer on his wheat, paying 50 cents per bushel below market price to the monopoly baker-miller, and these in turn have been trimming all citizens, as per Judge McBride's Bakery Monopoly Report, again proving that big fleas have little fleas on their backs to bite 'em and little fleas have lesser fleas, and so on ad finitum. What a game, and the farmer pays for it all.

STEADY READER.

Edmonton.

WANTS COPIES

Dear Sir—Please send me four more of Monday's Edmonton Sun, as there is a fine news story in it I wish to have.

J. R. BASCO,
Barberton, Ohio.

AIR FORCE SCOREBOARD

Dear Sir—How come all these news stories of air battles in Korea always have the same baloney? American planes are always outnumbered, sometimes 5 - 1. Yet many Russian planes are destroyed and our losses are practically none. If this were true we should provoke the Reds into war, just for the opportunity of shooting down their best planes and fliers. Smoky Lake WONDERRING

HOBBLED BY COBBLES

Dear Sir — How to save our children from being killed and maimed by automobiles speeding along our streets? Just remove the asphalt and replace it with cobblestones. Even crazy drivers won't go bumping recklessly over such streets, and then children can cross the streets safely.

Early Winter Stalls Harvesting As Grain Worth \$300 Million Lost

Unmarried Mother At Mercy Of Court

An unmarried, 18-year-old expectant mother was given a one-year suspended sentence in police court in Edmonton on a vagrancy charge.

Her story began three years ago in a small town just outside Winnipeg. There she met up with poor company and due to a splurge of wild parties she lost her job.

Following this she went to Winnipeg where she met up with the father of her unborn child.

Three weeks ago she came to Edmonton in an attempt to straighten out, but her common-law husband followed her here.

Morality squad detectives said she would be looked after by the Salvation Army and the Provincial Child Welfare Department. The detectives will also find the girl a job.

Three hundred million dollars worth of grain is lying on the ground in Alberta with little prospect that it will be removed before spring, according to spokesmen for the Alberta Wheat Pool.

Miller To Talk On 'Crime Does Pay'

A. W. Miller, a famous Edmonton criminal lawyer, will give an address in Regina Monday night entitled "Crime D-O-E-S Pay," contrary to popular belief.

Miller, who was born in Budapest—the capital of Hungary—was admitted to the Alberta bar in 1925. He has practiced in Edmonton ever since and has established a reputation as one of Canada's foremost criminal defence lawyers.

He will give his address to the Regina Women's Canadian Club as the club said his subject should be "thought-provoking."

The best "catgut" comes from the intestines of lean, ill-fed sheep, horses or mules.

And Alberta farmers face the grim prospect of bigger spring than fall harvest for the first time in their history.

Agriculturists said spring harvests are not unusual because some part of the crop is left on the ground most years when winter takes hold. The grade of this grain is drastically reduced after it has lain under snow all winter, but the blow wasn't too hard to take because of the comparatively small amount.

This fall the picture is vastly different with farmers experiencing the worst harvest season in memory.

The result: Hardly one-third of the wheat, oats and barley has been harvested on an overall basis. Even if the current winter weather eases, agriculturists said, farmers will be lucky to get more than 50 per cent of the crop in before snow and cold settle down for good.

Early estimates of the Alberta crops were in bumper brackets, with wheat at 169,000,000 bushels, oats 129,000,000 bushels and barley 109,000,000 bushels.

If half of this total is harvested before winter, about 200,000,000 bushels will still be left on the ground for spring. The biggest spring harvest field crops commissioner A. M. Wilson could recall was 30,000,000 bushels.

WELL COMPENSATED for absence of shore leave are crew of HMCS Magnificent, quarantined at Malta recently due to outbreak of polio. However, they spent their time enjoying entertainment organized on-board ship.

Farmers, Not Mineral Companies, Hold Rights To Sand, Gravel On Land

Two Alberta farmers won the right to the sand and gravel on their land in the second phase of a long legal battle involving surface and mineral rights.

The appellate division of the Alberta Supreme Court unanimously upheld an appeal by farmers Joseph A. Gaumont of Fort Saskatchewan and J. W. Brown of Redwater.

The farmers appealed against a previous ruling by Mr. Justice J. Egbert that the sand and gravel on their land belonged to the mineral rights owners, Western Minerals Ltd. and Western Leas-holds Ltd.

The panel of five appeal judges, headed by Chief Justice G. B. O'Connor, set aside Mr. Justice Egbert's ruling and declared the two farmers owners of the sand and gravel as part of their surface rights.

The decision also had the effect of upholding provincial legislation which decreed last spring that surface rights owners also owned the sand and gravel.

The legislation was passed after Mr. Justice Egbert gave his reverse decision.

Counsel for the companies argued in the appeal that the legislation was unconstitutional, but the appellate division ruled it constitutional since it dealt with civil rights and property.

A provincial spokesman said the appeal decision means Alberta surface rights holders own sand and gravel on their land and can make use of it, "provided they can recover it by surface operations."

Henry G. Young, president of the Farmers' Union of Alberta, lauded the decision by saying "surface rights owners now have a right to more than the top soil they plow."

Legal courses indicated the companies planned an appeal to the Privy Council. The original action started when the farmers began selling the sand and gravel from their land.

IN HOLLYWOOD

Gisele's Hollywood Neighbors Object To Menagerie Of Pets

By VIRGINIA MacPHERSON

HOLLYWOOD, Oct. 15—Gisele MacKenzie, the Canadian canary, admitted today she got "pressured" out of her Hollywood apartment because the neighbors objected to "all those shrieks and wolf whistles" that floated downstairs.

It wasn't what it sounded like, the shapely brunette chuckled. It was just her menagerie of pets. "All I had," Gisele explained ruefully, "was a long-haired dachshund and a little old bird... a cockatoo!"

And she'd like to explain right here and now that she wasn't doing all that shrieking. It was the bird, Cokie. And Gisele would like to think it was Cokie's singing the neighbors objected to—not her own.

"I sing around the house a little," she said. "But Cokie really gave out with some pretty horrible squawks. It was enough to curdle your blood."

"And every time a pretty girl walked by, he let loose with a long, lone wolf whistle."

Now Gisele is a mighty pretty girl. She walked by Cokie's cage a good hundred times a day. That kept Cokie pretty busy.

"The man downstairs claimed it gave him heart attacks," she said. "And, really, they did take him to hospital a couple of times. I felt awful. It got so I was afraid to

rehearse for my Capitol recording of 'J'attendrai' for fear it might bring on a seizure down below."

REALLY SENSATIVE

"They didn't like the dog, either. I had carpets all over, but the man complained he could hear the dog's footsteps every time she walked around."

"I think that's getting a little sensitive. Brunnhilde Von Bagel, that's my dog, only weighs about 15 pounds. She couldn't make all that noise!"

Gisele stood a couple months of this and then got tired of the cold-shoulder treatment.

"They got so they wouldn't even speak to me," she sighed. "I'd pass them in the foyer and say 'good morning' and they'd stick up their noses and cut me dead."

"Now, life is too short to live like that. I finally gave up and found another place. But I had to give the bird away. My new landlord wouldn't hear of leasing a place to him."

"I even had to introduce him to Brunnhilde before he'd okay her."

CAT WALKS 60 MILES

LONDON, Ont., Oct. 17. — (BUP)—Taffy, a five-year-old cat, claimed the world 'cat-walking' championship today.

The big feline jumped onto the back of a truck yesterday and was carried 60 miles to Bridgen. He had to walk back to his owners, Mr. and Mrs. L. Joyes.

Pond Turns Into Goldfish Paradise

ONE TREE, Alta. (BUP) — A stock pond on the farm of Sam Albert's has turned out to be a goldfish paradise.

Alberts and his wife brightened up their aquarium with some new fantails three years ago, and released four ordinary goldfish. They didn't expect the fish to last through the winter.

They got a whale-sized surprise. The pond was drained recently and hundreds of the brightly-colored fish were found. The colors ranged from pale gold to black and some of the fish were as much as 12 inches long.

Scores of district residents descended on the Alberts' farm to obtain some of the fish.

Merchants in Brooks, 10 miles southwest of here, reported an unprecedented demand for fishfood aquariums and fish bowls.

SAW VIRGIN MARY

VATICAN CITY — Pope Pius XII saw the Virgin Mary on three successive days last year, according to an Italian cardinal, just at the time he proclaimed as dogma her assumption into heaven.

All this hasn't endangered Canadian-American relations too much. Gisele, who has a program with Bob Crosby and another one with Mario Lanza, still likes it here. But her Canadian fans are afraid she's "going Hollywood."

"In Toronto" I was known only as "Gisele," she grinned. "They don't like me adding another name. But I had to."

"My real name is Gisele LeFleche. That sounds like a bubble dancer!"

Northern Theme in Gifts For Princess Elizabeth

Edmonton, "the Gateway to the North," has appropriately added the northern theme to its plans for the Oct. 27 visit of Princess Elizabeth and Prince Philip.

The Royal tour committee announced three gifts will be presented to the Royal couple — a beaver coat for Prince Charles, a native-made Eskimo doll for Princess Anne and a polar bear rug for their Royal Highnesses.

The presentations will be made at the Legislative building while the Royal couple are on a 20-mile tour of the city.

Two orphan children yet to be selected will present the gifts for Bonnie Prince Charlie and his sister on behalf of the city of Edmonton. Premier E. C. Manning will present the polar bear rug to Princess Elizabeth.

The Princess also will receive a bouquet from the daughter of a serviceman killed in World War II. She will then make a brief address.

Edmonton thus ended the secrecy surrounding the gifts to be presented to the Royal visitors. Previous plans were to keep them a secret until they were actually presented.

The Royal tour committee de-

ANN MILLER goes into her dance in her usual strenuous manner in MGM's technicolor, "Texas Carnival" which also features Esther Williams and Red Skelton.

cided to place officialdom in the background a bit more by having a young girl present Princess Elizabeth with a bouquet.

The committee said the child, yet to be chosen, will carry out her role immediately after the Princess received a gift from the province and the city of Edmonton.

The committee dropped plans to have Mrs. E. C. Manning, wife of Premier Manning, present the first bouquet in a private welcoming ceremony at the railway station. The Legislative ceremony takes place one hour and 20 minutes after the arrival of the Royal couple.

ALBERTA GOVERNMENT ANNUITIES

QUESTION: In the event of unforeseen need of funds prior to my reaching the retirement age, may I withdraw my deposit?

ANSWER: Yes. A depositor may withdraw all, or any part of his account which has been on deposit for at least five years but will forfeit all interest on any funds withdrawn.

QUESTION: In the event of my death, will my beneficiaries receive any benefits?

ANSWER: Yes, the total amount of all deposits, together with interest at 3% per annum, simple interest, will be paid to the estate.

QUESTION: May a depositor at time of his retirement obtain an annuity payable to both himself and wife?

ANSWER: Yes. At any time after reaching 60 years of age a depositor may obtain an annuity, and may select:

- (a) a single life annuity
- (b) a joint life annuity
- (c) a guaranteed term annuity for a period of not less than five years.

Radio Inspectors
Check Up On Licence

Radio Inspectors of the Department of Transport are now engaged in a check-up on unlicensed radio owners throughout the Province. Radio licences should be kept handy for inspection when called upon.

Those unable to produce current licences must expect a court action with consequent fine and costs. The Department trusts however, that anyone who has, so far, neglected to procure his or her licence will immediately do so and that a minimum of such unpleasant action will be necessary.

The color of licences this year is yellow for the \$2.50 issue and white for the \$2.00. A separate licence is required for automobile radios.

All licences expired on April 1st last. They may be procured from Post Offices, some radio dealers, or directly from the Radio Inspector, 10138 100A St., Edmonton, Alberta.

The Lighter Side

Quite a Gall

At a national Sunday School convention answers were given to the roll call by states. When the State of Texas was called, a brawny specimen of southern manhood stepped out into the aisle, and with a strident voice exclaimed:

"We represent the great State of Texas. The first white woman born in Texas is still living. She now has a population of over three million."

There was a pause of bewilderment for a moment, and then a voice from the galleries rang out clear and distinct:

"Send that woman out to Wyoming. We need her!"

Should Be Experienced

The very rich man was interviewing an applicant for the job as his personal valet.

"You may have trouble with me," he said. "I have a wooden leg, a glass eye, a toupee, an artificial arm and false teeth."

"That won't bother me," replied the applicant. "I used to be on the assembly line at Lockheed."

He Stuck It Out

A young lad in the lower grades complained to his teacher that he had a terrific stomach ache. The teacher sent him to see the principal.

When the little tyke returned to the classroom, he walked in such a manner that his stomach stuck way out. When the teacher asked him why he was walking that way, he replied:

"I told the principal I had a

stomach ache and he said if I could stick it out till noon he'd drive me home."

Something New

The long-winded lecturer had been holding forth for over an hour, except for brief pauses from time to time to gulp a hasty drink of water.

Finally, during one such pause, an old farmer in the audience leaned toward his neighbor and announced in a loud whisper: "First time I ever saw a windmill run by water."

Ideal Set-Up

Two men were discussing the coming marriage of their buddy. "He is getting a wonderfully accomplished girl," said one. "She can swim, ride, drive a car, and pilot a plane. A real all-around girl."

"They ought to get along," ob-

Royal Visit COMMEMORATIVE

Get Your Royal Visit Commemorative
Now, While They Are Still Available !!

A beautifully designed and presented PERMANENT souvenir of the first visit of Their Royal Highnesses Princess Elizabeth and the Duke of Edinburgh to Edmonton and district.

This lovely Mount, contains a beautiful informal family portrait of the Princess and the Duke and the little Prince and Princess, with a suitable salutation commemorating their stay in the district, all in a fine quality mount with three color cover, and having the family crests on the back.

An attractive and lasting memento of this great event, this folder may be kept as a permanent

keepsake, displayed by itself as a portrait folder that will enhance any living room mantel, or may be framed and mounted to form an original and fitting portrait any home would be proud to display in years to come.

Order your copy now, in time for the visit. Fill out and clip the coupon below, and mail along with 25c for each copy desired, to

Letter to Louisa

Dear Louisa:
I have been reading so much about teen agers using narcotics that I became worried and the mothers of our school children had a survey made. We found that there was no problem here. We wondered whether our small town was unusual or whether this was the case in most of the less populated places.

Answer:
The problem of teenagers using narcotics is mainly one for the larger cities. Of course, a thing like that will spread to smaller places if left unchecked and the officials of these larger places should accept the responsibility for this disgraceful situation and get to work and put away these peddlers of vice.

The city of Los Angeles has made the effort to do just this by stricter law enforcement and I understand that the officials there have been very successful. Three-fourths of the young drug addicts come from metropolitan areas and from homes that are broken, or worse. That, of course, doesn't mean that there are not exceptions for some of these youngsters do come from decent homes.

Children who live in good homes and have interested and loving parents are taught the dangers of such habits and even though they

begin on a dare or because of association with bad companions, their parents will probably discover the trouble before the case becomes a hopeless one. More power to women like you mothers who are interested enough in your children to try and find out if there is any reason to be worried. An ounce of prevention, you know, is worth a pound of cure.

LOUISA.

Dear Louisa:
My husband died a month ago and my two children want me to sell my house and live with each one six months of the year. I love my children and my in-laws but I am afraid I will be dissatisfied as I have lived in this place for many years.

The children do not like me to live alone. I am comfortably well off. What do you think I should do? I am undecided.

GRANDMOTHER, N.J.

Answer:
Don't sell your house. If you wish, try living with the children for a few months or a year and

P. STARKO and J. STARKO
OPTOMETRISTS
Telephone 21248
230 Tegler Building
EDMONTON Alberta

see how the plan works. I personally think you may be glad to have your own place to come back to.

On the other hand, if you do find living with the children pleasant, and they are pleased to have you, the house can be sold later on. If it is a large dwelling, you may divide it, renting out part of it to congenial people and keeping a small apartment for yourself.

It is nice to have a place of your own to come back to, be it ever so small.

LOUISA.

FUTURE CHAMPIONS may arise from the ranks of Royal Canadian Navy. Men in the Navy are encouraged to take part in athletic activity, and here two sailors aboard the cruiser HMCS "Uganda" stage a friendly boxing bout.

SHOULD HOMEWORK BE ABOLISHED

A plea for the total abolishment of homework is made by social worker and magazine writer Sidney Katz in the current issue of Maclean's Magazine.

Katz, an assistant editor on the magazine, says "there is strong evidence that homework sours pupils on learning for the rest of their lives, creates unnecessary work and worry for parents and robs pupils of wholesome recreational and social life during their most formative years."

Katz personally surveyed 50 school teachers, principals and inspectors from all over Canada. He reports that none favored homework in the first six grades of school. Only a few were in favor of it from grades 7 to 10. All said that homework assignments in senior high school grades were excessive.

Said Clarence Vickery, a Toronto principal: "Homework doesn't help the slow child. The fast child doesn't need it. So why give it?"

Said Lorne F. Titus, chief school superintendent for Saskatchewan: "Children need their out-of-school

time for other experiences."

Said a New Brunswick School Board member: "How would Dad like to be faced with two or three hours of more office work just as he gets ready to relax after supper?"

A recent Alberta study by Raymond Shaul, says Katz, studied 2,000 teachers, parents and pupils and found most teachers opposed to homework.

Katz points out that a Nova Scotia ruling prohibits Grade I pupils from taking their readers home and doing homework because the youngsters were "learning to read" by memorizing the books.

Katz blames parents for con-

tinued heavy homework assignments. Teachers and principals, he claims, are opposed to it; and he quotes one teacher as saying "We plead with the parents to stop interfering."

NEW WAR WEAPONS

ECCLES, Eng. — New "secret weapons" will make child's play of the first two world wars if a third one breaks out, Defence Minister Emanuel Shinwell said last night.

"As Minister of Defence, I've a good knowledge of secret weapons of war," he told a political meeting, "and can tell you if another war broke out, the last two wars would be child's play in comparison."

Price Control Not The Answer

WINNIPEG. — (BUP)—Price controls on commodities would not combat inflation and would be harmful to all Canadians, an official of the Searle Grain Co., Ltd., said.

Major H. G. L. Strange, director of the company's research department, said, "government controls over prices never have helped and never can help to control inflation."

"Higher prices are the symptoms—the effects—and not the cause of inflation," he said.

Major Strange addressed the opening luncheon of the Canadian Woollen and Knit Goods Manufacturers' Association three-day annual meeting in Winnipeg.

He said, "price controls over commodities would have to include price controls over all wages, cost of living bonuses,

overtime pay and salaries; would inevitably involve rationing, quotas, permits, queues, together with fines and imprisonment for non-compliance with many oppressive rules and regulations."

Canadians Fire 100,000th Round

WITH CANADIANS IN KOREA, Oct. 17. — (BUP) — The Second Field Regiment of the Royal Canadian Horse Artillery this week fired their 100,000th round since their arrival in Korea last May.

In a short address Brig. John M. Rockingham said to the men of D Battery "Able" Troop that behind the firing of the 100,000 round was the memory both of many months of arduous training and of hard work here in the field.

"I have never seen a better field artillery regiment and I know that my feelings are shared by the three infantry battalions of this brigade who have complete confidence in your capabilities," he said.

"I should like to commend you on your splendid performance and I know you will continue to do an excellent job as you have in the past."

"Charlie" gun, "Able" troop had the honor of firing the significant shell on which was scrolled "present from Rocky, 100,000th round."
